WEBSITE STORYBOARD

Vanilla HTML5 / CSS3

1. Mobile Layout

Minimum width shown in the storyboard: 600 px

The mobile version uses a vertical layout so that the content fits on a narrow screen.

Section	Planned content
Header	Contains the website logo.
Menu (vertical)	Navigation links: Professional, Personality, Development and Other.
Card 1	An H2 heading followed by paragraph text.
Card 2	An H2 heading followed by paragraph text.
Card 3	An H2 heading followed by paragraph text.
Footer	A footer area at the bottom of the page.

The cards are stacked vertically, making the content easy to follow while scrolling.

2. Desktop Layout

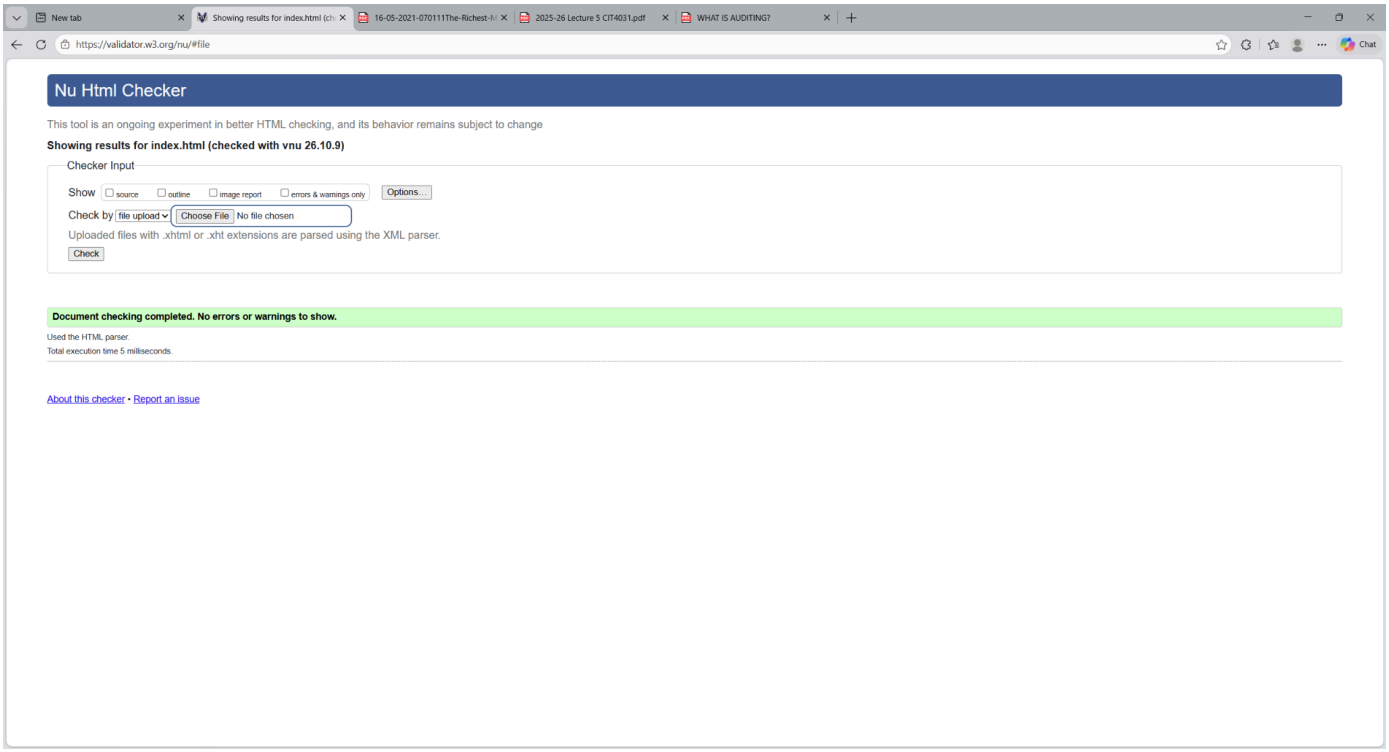

Minimum width shown in the storyboard: 950 px

The desktop version makes use of the wider screen by placing the navigation links horizontally.

Section	Planned content
Header	Contains the website logo and a horizontal navigation bar.
Navigation bar	Links: Professional, Personality, Development and Other.
Main container – Card 1	A welcome section with an image labelled “Q1. UTECH ID IMAGE [mail client link]”, an H1 welcome heading and a paragraph.
Main container – Card 2	An H2 CV/Resume heading and a section labelled “Q4.1a Curriculum Vitae Content”.
Footer	A footer area at the bottom of the page.

3. Design Choices

Item	Description
Colour palette	Burgundy, black and white.
Technology	Plain HTML5 and CSS3.
Mobile layout	Vertical navigation and vertically stacked cards.
Desktop layout	Horizontal navigation and a wider main content area.

HTML validation result for index.html — no errors reported.

The W3C CSS Validation Service

W3C CSS Validator results for css.txt (CSS level 3 + SVG)

W3C CSS Validator results for css.txt (CSS level 3 + SVG)

Congratulations! No Error Found.

This document validates as CSS level 3 + SVG !

To show your readers that you've taken the care to create an interoperable Web page, you may display this icon on any page that validates. Here is the XHTML you could use to add this icon to your Web page:

```
<p>
    <a href="https://jigsaw.w3.org/css-validator/check/referer">
        <img style="border:0;width:88px;height:31px"
            src="https://jigsaw.w3.org/css-validator/images/vcss"
            alt="Valid CSS!" />
    </a>
</p>
```

```
<p>
    <a href="https://jigsaw.w3.org/css-validator/check/referer">
        <img style="border:0;width:88px;height:31px"
            src="https://jigsaw.w3.org/css-validator/images/vcss-blue"
            alt="Valid CSS!" />
    </a>
</p>
```

(close the img tag with > instead of /> if using HTML <= 4.01)

If you like, you can download a copy of this image to keep in your local web directory, and change the XHTML fragment above to reference your local image rather than the one on this server.

If you would like to create a link to this page (i.e., this validation result) to make it easier to re-validate this page in the future or to allow others to validate your page, the URI is:

```
https://jigsaw.w3.org/css-validator/validator$link
or
https://jigsaw.w3.org/css-validator/check/referer (for HTML/XML document only)
```

(Or, you can just add the current page to your bookmarks or hotlist.)
